### OVERVIEW

---

Results-driven Full Stack Developer with 3 years of experience designing, developing, and maintaining production web applications from front-end user experiences to backend integrations. Adept at collaborating with cross-functional teams, improving user experiences, and delivering reliable software solutions with a focus on performance, maintainability, and business impact.

### EXPERIENCE

---

Remote Associate Software Engineer | Guitar Center Corporate **July 2022 – PRESENT**

- Built and maintained front-end features using React.js, Next.js, and TypeScript to improve performance and usability for users.
- Designed and implemented API integrations with backend services (POS systems, Salesforce), handling payload, error states, and asynchronous flows.
- Refactor large monolithic components into modular, reusable utilities and components, improving code maintainability and reducing tech debt.
- Collaborated with other team members in developing new features that will help retain users while also improving the sign-up process for users.
- Performed code reviews, code quality improvements, and contribute to technical documentation.

### PROJECTS

---

WATCHLISTED - [www.github.com/watchlisted](https://www.github.com/watchlisted) [www.watchlisted.com](http://www.watchlisted.com)

- Developed and maintained a robust scalable full stack web application using Next.js and TypeScript implementing both server and client components separation.
- Built a real-time search system to minimize API calls, supporting both keyword search and natural language AI-powered search.
- Integrated Anthropic Claude API to power AI features such as personalized recommendations, summaries, and advisors.
- Built a RESTful API layer with full CRUD operations with authentication guards.
- Integrate third party TMDB API for movie and TV data that includes trending content, search, streaming availability, and recommendations.

### EDUCATION

---

California State University Northridge  
Bachelor of Science, Computer Science

**July 2018 – December 2020**

### SKILLS

---
